Hang on a second or more; - I think it maybe the time for another cup of tea or whatever sort of break you may take, before we continue; - OK let's go: — Hold on, quick jump up first. Only joking, so I guess it is time now to continue with this report of truths: - In the meantime, while going to a private party, to dance and enjoy myself with my misses at the time, meant to us, that we would unforgettable be travelling on our way to our pre-arranged destination; - On the 12/01/2013 there was to be a private party that took place, in and around the surrounding areas of Canary Wharf and I got invited to attend to it, so I went to the party with my partner. In this instance, other, people who were occupying a building were treating it as their home; this was being granted and obtained under a section 144 LASPO notice. On this night, when driving to our destination the police used a wrongly entered intelligence report that had prior got inputted into the police national computer, which explained that there was no insurance policy for my vehicle, but there was a policy in place for me to be driving. It had been dark at night and I was far away from my home, so on this one of many occasions of being pulled over by the police, I felt quite lucky even low insured not to get my car seized afterwards or end up being arrested, not to forget the possibility of both occurrences actuarially taking place towards my person, as to my past experiences with the police, I have learnt that this would be normal in most police cases, when they get involved with I or other members of the public.

In a few more words of mine, I would say that I had not prior planned to supply any sound recording equipment on this day to any other person and to strengthen this fact on the day I was driving my car. Two of my points that I raise now is that any sound equipment that had gotten referred to by police on this occasion, just would never have fitted into any car, at the end of everything and after spending time with the police officers, the police did finally release me to go, and I didn't end up getting arrested. I knew that the police officer's at the time who got involved in pulling me over could have used their powers of law, correctly, or incorrectly, so with this in mind, I for the most parts of our confrontation stayed charmed, as I knew that the officers' of the law could have manipulated their power of law, so for it to be; in any form of a crooked way, as has prior happened to I before and this is to be inclusive of other people, this would have g

In the first moment's, once we arrived, I and my civil partner settled in with our friends, for the next few hours we had an enjoyable night, when suddenly, at around 200 Hours; clearly; the UK GMT time zone, one intoxicated, drunk man came up behind me and hit me across the back of the head, my first reaction was to defend myself from his be crazed actions and this is what I did. The drunken man attacked me with a glass bottle hitting me from behind on the back of my head and in a truth of a true reality, it was luck that I was not turning around at the time. This took place many hours after the police had left me and my partner at the roadside, when at first on that evening pulling my car over. In the moments of me acting in self-defence I and this person had a brawl against each other and in me taking control of the moments of the incident, I ended up attending the Royal London Hospital soon after, this was for me to get some surgical stitches applied, because I had hurt my head in the beginning. Part of my personal upset is that, now since the day of this incident, somehow, some way, some government official, has used these incidents in the year of

in an appeal stage when it never got submitted in the first part of the Asbo application. The have also induced extra intel into the Asbo folder but may not have reopened the true Crimint. The days accused events have gotten manipulated by getting turned it into an incident against me and illegally, the forged intel got included into the Anti-Social Behaviour Order application and as a conclusion to them officers "misconduct" I am now left imprisoned within my own home due to such out of time info and wrongful edited information.

➤ **Court Case: "Sunday Going out on my Motorbike for the day."**

Wandering Around: --

This fine day was just me wandering around to others and to me it was just another day, very much similar to other days and I guess this would be very much the same; for any other people, who reside in and around, the Great British town's streets off London: - Going out with friends. One of the many of best days of our lives had gotten planned out, so for me and my friends to go out on our own Off-road-Scramblers. What acutely; happened, is that on the

07/04/2013

I had arrived at my friend's house, what is on, an up kept average, London housing estate. This was on the traditional British day of rest and for that fact, it was a Sunday. On this occasion, I and my friends were in London's Streets, EW1. Initially, in the beginning and thought that days moments, in the start of the days, hours that me and my friends had all been together, I would say that everything was going fine, for me to quote a saying off what happened in the one thousand and four hundred and forty minutes going on in them twenty-four hour that I think many people may already have heard before, so for me to define the days' event's, I would say; all good things must come to an end. Before the police officer's presence, I and my friends had intended to head out on our planned travels and this day would have included us all being able to arrive, at our prior planned destination, but as always in my life, the police had stopped us.

Next in, is Just, three out of three, quick short couple of notes; —

Note 1; The day had got set by ourselves, so for us all, to have; a lot of excitement, within the legal constraints of the united Kingdom's Laws and because of this we were all, being silent and relaxed, therefore we caused no trouble and was just waiting to go out for the day.

Note 2; A lot of different people's off-road-motorbikes were present, as, we all were on this day out for me and my friends. When the police officers questioned us all about them, beforehand of arresting my person, everybody's off-road-motorbikes; were already in three different prior arranged vans and soon to us, the true owners of them all, were to be able to go on the move to our chosen place on that day, if not for the police officer's interruption.

Note 3; I also would like to note the point of; I and my friends, definitely supplied no entertainment equipment to anybody, on this date and therefore, as a result of mine and other's good intentions for this day, I did not cause any acts of Anti-Social Behaviour, hence, together I and my friends, did not cause any illegal or civil problems, as a quick briefing towards a summary, on this incident; I did not feel like I could even go out for the day that being said and meant to mean; with some of my friends and not getting harassed, by the police, once again.

A continuation of the same day events: --

07/04/2013

So, for me now to only leave the rest of the past day's events to get explained, now down too I explaining even more-extra further truths; The police officers who had commenced, on us, at the time did say to us all, who were present at the incident, that they had got called to a report of a Burglary. When this got explained to us by the police officers it had got confusing to me and my friends, as, we caused no criminal offences that got accused of our persons that the police officers were then alleging to us. Members of the police had approached us and this was while I and my friends were all together, getting ready to head on an into our travels out; In portraying, to another person the day's predicaments, of one of the now at present, funny parts of this day I would start by explaining; that it was the so called 999 police call / the police officers present at the scene so-called witness. The dilemma of what ended up happening to me is that by the end of me explaining to the police officers, about me being an innocent man, is that the police officers continued with their plans not to trust in me, and they forcibly searched inside of my van, while using their powers of law against me. OK, at the time to me and my friends felt that, how the police officers, made us all feel, got achieved by the copper(s), so that things had got completed wrong by them and this was happening to me and my friends, so, that what was going on to us was not so funny at the time but once the copper did their searches and finished embarrassing me, I can recollect them getting out of the back of my van and in both of them officers managing to doing this, I noticed that they both accepted to me, that I was right from the start and there was no stolen property in my van, in fact there were just two off my own personal off-road-Scramblers, to my own satisfaction.

As a continuation of the

07/04/2013

I make it evident that People always claim that god; Loves a person to try hard at good things, out of their life and this is what I done and still do. When the Police took the time after doing their searches inside of my parked van, they had to explain their intelligence to us all, this got done so for the police officers to explain their reasons of search on me and my property, they both explained the following; that it got based upon the so called **original** 999 call that the police call centre had received and in that report a civilian person claimed to see a burglary, that was supposedly in progress, they continued to further their information to us, by explaining that the police officers witness who had called them had seen some sort of stolen property, such as a TV, being placed into the back of my van. This was never true and now in any off the situations such as, more, neither, nor anything of the right that is expected, the Police are now using this day as a civil case, at a later date, to their own wrong advantage against me, after me being charged and not found guilty for anything for the day, the legal director of the Metropolitan police force just simply refuses to take any of the cases out of the Asbo folder and this case is also out of the time limitation Act 1980. Where the incident has got put into the Anti-Social Behaviour Order case files it has caused me to wrongly suffer and even after me winning the case in court and then to make things worse, the police officers, who are to support taking pursuit of this so called pointed out wrongful actions, who are in charge of creating and the on goings within the Asbo case do not seem to be able to provide, any of the following: — As the police officers said, at the roadside, there should be an official police intelligence CAD, that should relate to this date and time of this incident.

One.

This police cad should also be able to refer to the Pacific details; that must describe a person accusing me or other people of criminal offences.

Two.

Neither do the police show the evidence of the 999 callers, stating that they saw a burglary that was in progress.

Three.

The missing and not induced Cad of police official information, must then introduce true evidence, off the so called; if any, true audio recordings, that would relate to any of the 999 calls, that got said to have got made on this day. The Second part of the day:
--

I, can evidently, reminisce, on both of the police officers, being clear and adamant, in what they had together said to us, while still chatting with the police officer's, they continued with what they were doing to my person and also continued to do their Identification checks, on the two-Off-road- Bikes this did also include my van, and they all came back to be legitimate but this never got mentioned again in case that I won at court or even in the up-to-date Asbo on goings. In another addition to the events, of the day, the police said that I had No insurance, so to be driving my van and this become a further negative effect, towards me. This further negative effect got place upon me already knowing, that my insurance company had also tried, for themselves to help me, so to resolve all the problems that we were all then together having. After my van and I got searched, by the attending officers of the law, I continued to get abused by them both at the roadside; the reason to why I got abused is; because of my insurance policy, still not showing up on the police National computer systems, I continued to get frustrated because of this and the following reasons. It was easy to understand that I was getting constantly attacked by members of the police force, attacked as if in to describe a person always getting harassed. This Harassment partly took place on most available Sunday's. I can remember that on this occasion I literally had to freeze on the day; While re-analysing the circumstances that I got presented within by them police officers on the scene, so, to be able to stop any of the tear's that unexpectedly seemed to want to then drizzle down my face; or maybe start too really flood out really fast of my eyes and to then come down both sides of the cheeks, tears running down onto my garments, and straight onto the floor. The police officer in front of me had become criminals "thieves," they wanted my van and the bikes to go to their police compound and for me to pay for it. I knew right there and then that they had no legal rights to do the things that they were doing to me and take my van and this is that precise moment in time, when I held my breath into stop them tears, I continued to talk to the police about not seizing my van. When I asked them to trust in me in the hope of them police officer's, not doing any of their unusual unwanted actions against me, such as: The Intimidation and Harassment, that I am made to believe that I must get used to, when getting somehow, someway, victimised by some police officers. Referring to another addition of a part to everything, that was going on, I said to the police officers; that there is a harder problem to overcome and this problem was with the day being a Sunday; and I do strengthen this now made announcement about the day being a Sunday, as to the contrary is because this got done to myself wrongly and as to a consequence off the police officers own bad decisions and actions that on the day lead towards their entrusting misplaced behaviour towards me, as they both must have also already understood that; 99%, of insurance companies do not get opened, on a Sunday so, my insurance policy should have covered me alongside with my word, when I told the police officers, whom were present that I had already got insured. With the day being a Sunday, this also meant that they could not have been able to make a phone call to my insurance company, "on this day," besides in my defence, I told the police officers, whom were present, at that precise stage that I had already got insured and showed a copy of my policy to them both.

To keep the ball rolling, another key point is, that for many months pre-existing to this incident equalling to the amount of time that it got left to extend to this incident, my mother previously had tried to help me to stop the dilemmas I kept having with my insurance policy. My mother had already tried many times beforehand to resolve the issue of my concern, by contacting the relevant people involved, this included the police, DVLA and my insurance company, as well as the MID database. Throughout her conversations with the relevant people, she come to an agreement with them all

and what got agreed is that this problem would get resolved between them all, “as to describe something being fixed, not a problem no more,” so to me this meant that together a lot of people had all prior tried to work out why; I was always, not showing up as insured. I noticed myself that on the police computer I did not show up as insured, but I was OK on the mid database and OK on my insurance company’s computers, but still no one could solve the problem. While talking to the police officers at the roadside about my insurance I noticed that there was no more talk about a stolen TV from any house; what next started to proceed is that, while still standing and talking to the police officer’s, I did get a bit upset and by the middle of our discussions, all of our voices, had become at a bit high of a rate, the reason being of my voice getting louder was because I got accused of not having any insurance and they wanted to stop my pre planned day out on my bikes. I did have the correct insurance policy in place, so for me to be driving and able to drive that can then, that was in question at the time, so I do not see why I did get arrested by the police officer on this day and I also do not see why the police officers made this case get continued towards me, by them police officers; following charges against me. After getting humiliated by getting searched for a TV I then having my van seized with my bikes in it. Once arrested, I got taken to the police station, I then after got charged and granted police bail and this got placed on to a further date for me to attend at a courthouse, meaning that in turn I then got to attend to a court hearing and this was for a hearing, so that I could enter my no guilty plea, to establish that I needed to wait for a trial to take place, this further date got set so for me, to be able to defend myself. When in court, and at the first preliminary hearing it then got explained to me by the judge, that if I do not attend to the courthouse; a prison sentence may get issued towards my person and this would work out to be with the possibility of a fine or both. Amusingly, the charges that got brought into motion by the police were for a breach of the peace and for no insurance, which I did not commit, this meant me paying out of my pocket more money to the government official’s or even a custodial sentence. Under these circumstances I had already had to pay the Police car compound money who had seized my van and in turn this forwarded the fact that I suffered yet again, for losing my vehicle and the cost of paying, to get it back out of the police car compound. I done nothing wrong and I paid a lot of money, for my insurance policy, to which I lost, due to these court cases on goings. All of this information to me meant by

2013,

things just simply; changed in my life and I slowly got depressed, as you can read all about, because of the manner in which the police officers were treating me, as I understood what they were doing to me was so wrong. I look back in time and forward into the present time of today in writing this book / report / diary, when both of the offences had said to have taken place, that the metropolitan police force brought into motion; the reason for this is both of the cases, tarnished my life and got dropped shortly after. Both cases got dropped shortly after in compliance towards a decision that got made of a “No Further Action” being taken place against me, but this case still was not to be over in the copper’s eyes. The accusations claimed against me in the case files continued to get used against me. In the moment of these occurrences and a long time after this day protested to proceed, I knew that what they were doing to me would change my life for the worst and that this meant to me that whenever I continue to wake up, at my own home on most mornings since the day’s incidents took and take place, I seem to keep thinking to myself the same little thought: repeatedly, and repeatedly, again; how did this day get added to the Anti-Social Behaviour Order Application, at this present time of my life. The original police officers’ statements, got held in the police national computer system, after being imputed on the first few days, what did in fact truly happen is that after the incident took place in Elsmere Street, I went to court and got found not guilty and then afterwards; “Some, other, different, police officer’s,” from another police force alongside with the metropolitan’s legal director edited the old NFA case information, by extended their work abilities and

decided to take the law into their own deceitful hands, while the original Crimint got placed on their working companies' systems. This got done so for it to get fabricated, and then they compiled their falsified redeveloped made and said to be findings, of the day, so to adduced them findings into a copy of the Anti-Social Behaviour Order proceedings, that I am fighting against, up and till date, which has wrongly, got put against me, with no honest reason's, as I already prior won the so-called court case in the court. In add-amusingly, to me, was nothing ever got explained again, that being about any report of a Burglary, which the police officers claimed all about and now it makes me feel furious, in knowing what the police officers are doing to my life all of the time, when regarding this instance and others, it left me being even, moreover, to being intrigued, by the police officers who got involved, I get astonished by them all, for what they have done to me.

Points of Facts of Law:

- 1.** I won this case at court and then afterwards the police used it to gain a guilty conviction against myself!
- 2.** Mr Cordell did not involve himself in the organization of any illegal rave.
- 4.** This was his friends housing estate and because of there is reason there is no party locations within the local housing area, throwing a party very unlikely.
- 5.** And the day was a Sunday, Very unlikely for a party of any form or concept.
- 6.** Nor did he supply equipment on said date.
- 7.** **Mr Simon Cordell will state;** "that he was not rude to police, but he did feel like he could not even go out for the day with some of his friends, without getting stopped and searched by members of the police. He states he did not get upset in the manner that the police have said he did and that he does not mean to come across as rude to police. In this case he was just trying to explain the error on the system.
- 8.** It is also noted that the caller was very clear that they saw a flat screen TV being put into Mr Cordell's van, which is confusing to why when the police searched the van, they found no TV, but did in fact find two of his off-road motor bikes, which is not included in Steve Elsmore statement.
The police did checks on Mr Simon Cordell's Off-Road Motor Bikes but this is also not stated, but should show up on the seizure notice, as Mr Simon Cordell did ask the police office to take careful note of the two off road motorbikes, as due to the high value of them.
- 9.** **Mr Simon Cordell will state;** "that he did get a bit upset when the police said they were going to seize his van, as he did have insurance in place to be able to drive the van in question, but there was an error on the MID database.
Miss Cordell had been trying to help her son resolve the issue concerning his insurance policy not showing on the mid database alongside with members of their local police force and his insurance company KGM too, together they had tried to work out why Mr Simon Cordell was showing as uninsured. There was information noted as intelligence on the police National Computer stating this I had asked the police to check on their systems due to this, but they would not they just wanted to seize Mr Simon Cordell's van without checking, so he knew he was being wrongfully accused at this point, as he had done nothing wrong and he did have insurance to be driving and had paid a lot of money for his insurance.
- 10.** In addition, the prosecution offered no evidence in respect of the charges that were brought even though they were reliant on police witnesses. Mr Simon Cordell had been wrongfully arrested for not having insurance when he was insured to drive.
- 11.** He also did not cause any Anti-Social Behaviour on this date in question.

12. There are no CAD's for this date, but yet they were meant to be, a CAD referring to the pacific details that should be relating to a person stating, that they believed a burglary was in progress and of the 999-caller stating that they had seen a person who was putting a flat screen TV into Mr Simon Cordell's van.

I am Simon Cordell; my date of birth is 26th January 1981. My home address is as stated above.

I am making this witness statement in response to members of the police and local authority's application for an anti-social behaviour order.

I am currently in the process of trying to establish my company. I have not yet incorporated it; however, I am currently working on having it registered as a company. I am aiming to have it registered as a limited company with charitable status within the articles of the memorandum of association. I have become a member at general meetings held at my local community hall in turn taking part in the daily challenges a community hall can be presented with. This has introduced me to various people who have helped me with good advice.

I have always wanted to give something back to the community. I have established my web site with a lot of help of others and have now "parked" my company, and I exhibit proof of this of this as SC/1. The company is not yet trading, but I aim to trade soon.

I was placed in the care system as a child, and I try to help vulnerable people. I know what it is like to have to fend for yourself. I exhibit letters of proof that I have helped homeless people as exhibit SC/2.

02,

I believe that this application is an attempt by members of the police and local Authority to find me guilty of offences I have not committed in turn having an effect on my health and stopping me from developing my company, and it is not acceptable or reasonable. I am in the process of developing a business plan for a festival at Barley lands in Essex. I had planned to have this event in 2014, however, the stress of the ongoing ASBO proceedings have stopped me from putting this festival on. I exhibit a draft business plan as exhibit SC/3, and a business submission form for a community festival as exhibit SC/4.

I was once arrested by members of the police outside White Sands Nightclub on 14th November 2013 at Brixton Hill and I had my van seized. The reason given for stopping me was that I had "tools of the trade" in my van and my insurance did not cover driving a vehicle on this basis. My vehicle was seized as it was alleged that I did not have insurance. I was actually insured at the time, and there were no tools in my van. I exhibit proof of my insurance as exhibit SC/4. A police officer gave incorrect evidence in court that he had not taken my vehicle because there were tools in it; however, he had made an inconsistent statement previously saying that there were tools in the van. I exhibit proof of this incident as exhibits SC/5, a witness statement authenticating the sound recordings I have submitted, exhibit SC/6, transcripts of sound recordings of conversations with police personnel and my insurance company, and exhibit SC/7, a sound recording of a phone call from a police officer to my insurance company, and exhibit SC/8, a further sound recording of a phone call between the insurance company and the police car pound. I was convicted of driving without insurance on the basis of his evidence. I am appealing against conviction on the basis that the police officer gave incorrect evidence to court. My insurance company has provided me with a letter of indemnity and witness statement in this respect; however, I am currently banned from driving as a result of the officer's incorrect evidence. I exhibit the clerk's notes from the Magistrates Court trial verifying that the police officer told the court that my Van had not been seized because of there being tools in the Van, and a covering email from Lavender Hill Magistrates Court, as exhibit SC/9, and I exhibit proof that I am currently banned from driving as exhibit SC/10. I had a legitimate reason for being at White Sands Nightclub as I was discussing becoming entertainment manager for White Sands Nightclub; I was going to see a friend about the possibility of a job interview. My van was empty on the date in question.

I accept that I own entertainment equipment. I have acquired these for my company. I am trying to build a company, and the aim was to rent the equipment out to people. I have prepared draft terms and conditions of business that I exhibit as SC/11. I was trying to hire the equipment out to conferences, school fates, local community events, private birthday parties until the stress became too

much. I would hire the equipment out to private parties, and to people who could provide me with sufficient identification, and who could cover any damage to the equipment.

I have worked and attempted to work with charitable organizations, in particular Muswell Hill festival helping kids with cerebral palsy, as well as the local scouts Ponders End festival, Lock to Lock festival, Enfield Town Festival, Durant's Park Festival. I am a member on the committee at my local community hall, I have also been working alongside D.E.M.S event management service's in aid of Bliss who are a charity that helps premature babies. I have been building strong relationships with a view to developing a running business helping make a positive effect of today's people and society. I exhibit proof of my business relationship with D.E.M.S as exhibit SC/12. I am very concerned that this application is damaging my attempts to build a legitimate business by way of darkening my name and company brand. I had arranged a community charity children's fashion show fundraiser, and I exhibit proof of this in the form of tickets that had been printed for the event as exhibit SC/13. However, this event did not go ahead as planned as the stress of these ongoing proceedings meant I could not take part in it.

I am currently signed off from work due to problems that I am having. I exhibit proof of this in the form of my doctor's authorisation as exhibit SC/14. These proceedings have taken a large part in the deterioration of my health, by way of the stress caused.

I will now comment on the incidents that I am alleged to have been involved in and that form the substance of the complaint that has been laid against me.

I am alleged to have been involved in the organisation of and/or supplied equipment for and/or attended an illegal rave at "Redacted Part Not Relevant to Day!"

On the 07th April 2013, I was going out with my friends and I had some off-road bikes in the back of my van. I was looking forward to this day, and it had been arranged for a Sunday. We were waiting

I do not see how this is relevant to proceedings for an anti-social behaviour order; in addition, the prosecution offered no evidence in respect of the charges that were brought even though they were reliant on police witnesses. I had been wrongfully arrested for not having insurance when I was insured to drive. I did not cause any Anti-Social Behaviour on the 7th April 2013.</p> <p>“Redacted Part Not Relevant to Day!”⁰⁵, 06, “Redacted Part Not Relevant to Day!”⁰⁷</p> <p>Signed S. Cordell Witnessed By L. This is the commencement off another day of my life that somehow got added wrongfully into the Anti-Social Behaviour Order case files, as perhaps, it got added in error by police. Part of the reason it got added in error is; Cases like this one can only get added into the on goings of the Anti-Social Behaviour Order case files or any other case files, as a case reference, as to the time limitation Act 1980, which states, a case must get applied six months from the incident, to which this case was not. It is incorrect for the police to allege, that on the 24/05/2013, and I was looking for venues in which to hold an illegal rave, so they or it could go ahead, I disputed their accusations at the time and still do to date, I knew that I never committed the crime, so I understood for them not to be true and this got worse as a result of this not being me. I got contacted by a friend, who was living at 204 High Street Ponders End EN3 4EZ, also known as the Old Police Station at Ponders End, as he and some others, were homeless, so was living and living under a section 144 and needed money to get loaned to them, plus I in enjoyed being around them, so to do this, I headed towards 204 High Street, to park the vehicle I was driving. I decided the best option for me, was to drive down an alleyway that I always knew to be there, the reason I knew this, is that there was once upon a time a car park behind the two well-known landmarks, that were once and still are present. one of them buildings, has now got demolished, so that the land can get redeveloped and got known as the name of the old ponders End police station and the second building being named as the Kinder Garden Centre, I believe many people also probably, know the well-known landmarks, who may live in and around the surrounding</p>

areas, who could also be able to remember them. I personally understand the area well, as this is where I have lived all of my life, so I understood about the car park that was at the back of the two well-known landmarks. Being, from the area meant I also knew that no civilian drivers can park on the high road, because of the double yellow lines or other restrictions, what are or were in place, so I parked in the back-car park like I have done many times before. I believe the police saw my car as I took a right turn to drive down to where I intended to stop; the police had followed me straight away after they see me, because I see them pay attention to me, as I drove past them. What I remember is that of myself locking the vehicle I was driving in as the police approached me. The police were now standing by my side and this is normal for me, their presence is so normal. Where the police have pulled me over so many times before in an addition to this, I just got ready for their police procedures, as I knew that they would want to search me, I was right the police searched me and my car, the police said they done this because they thought that they smelt a strong smell of cannabis. As always, I consented to this search to proceed. The police cannot dispute this knowledge of them police officers that had approached me and who stopped me, as I just got out of my car, or how would they have said the car smelt strongly, of cannabis, and this is to explain, in their police statements, as they do. Even more to this, was the reason to why the police officers gave me the conditions of search and their consent form due to being searched by themselves. In an addition, there had been nothing done wrong with my part once everything got clarified to be true of me. When the official police officers, checked me and my car, I have done nothing wrong, so nothing ever got found. I emphasize, as an effect, to what took place, the police watched me leave straight after, completing their procedures, so as an effect of these on going's; after talking to the police, we all dispersed and the police see me head back towards my home.

Please take note to the picture above and that of the building on the far right being the old police station, you cannot see the front vehicle entrance as it is in the far right of the picture and is the only entrance. The alleyway in the middle is where I drove my car down and stopped there is no rear entrance to the police station from the ally as there is two other running companies in-between and to the far right is another running company.

24.05.2013 = Mr Simon Cordell was looking for venues to set up an illegal rave

**On the
24.05.2013**

Mr Simon Cordell will state; “that he did not attended any premises on this date to rave neither was he involved in the organization of any illegal raves, nor did he supply equipment. This case was only added as a reference as the limitation Act 1980 which states that a case must be applied 6 months from the date of the incident, to which it was not.

Please read my last statement dated the

24/02/2015

It is alleged that Mr Simon Cordell was looking for venues in which illegal raves could be held, on

24/05/2013

24th May 2013

Mr Simon Cordell dispute's this. He will state that he had been contacted by a friend called Joshua, who was living at 204 High Street Ponders End EN3 4EZ, also known as the Old Police Station at Ponders End, as he and some others were homeless, so was living and residing under section 144. as Mr Simon Cordell was driving towards 204 High Street, he drove his car down the alleyway so that he could park the vehicle he was in, He parked between two well-known land marks, which is where many people who do live in an around the surrounding areas would be able to remember as the old ponders End police station next to the Kinder Garden Centre. Mr Cordell states he knows the area very well as this is where he has lived all of his life, so he knew about the car park at the back of the two well-known landmarks, as he states you cannot park on the high road, because of the double yellow lines or other restrictions. He had parked there before, he states he believes and knows that the police saw his car as he began to take a right turn to be able to drive down to where he intended to stop, he knew the police had followed him, as he had seen them pay attention to himself as he had driven past.

Mr Cordell does remember clearly that of himself locking his vehicle as the police approached him and now was standing by his side. He states that this is normal for him and over the years of his life he has become use to the police approaching him for numerous accusations, so that has also made him used to their presents, Mr Simon Cordell states that that this is so normal for him, so he got ready for the police procedures, as they said they wanted to search him and his car because the police believed that the car he was driving smelt strongly of cannabis, Mr Simon Cordell sates that he would always consented to this. He is sure of his statements of facts and that the police cannot dispute this, that of the police officers that had approached him and who had stopped him as he had just got out of my car, or how would they have said his car smelt strongly of cannabis, which is the reason that the police officers gave him the conditions of search and their consent form due to a search of himself and that of his vehicle that he was driving.

Mr Simon Cordell will state; "that he had not done anything wrong and nothing was found on his person or in his car." Mr Simon Cordell will dispute making any comments about being able to attract people to illegal raves and illegal 3-day events, what reason would he have had to say this. Mr Simon Cordell will state to the applicant that he was a visitor to the location of interest, due to a call from a friend who asked if Mr Simon Cordell could loan him some money for food. He will also include that he did not cause any Anti-Social Behaviour on the

24/05/2013

24th May 2013

Mr Simon Cordell does not know what Joshua said to the police, as he was never with Joshua. Mr Simon Cordell does not know why Joshua would have said to the police that he was his lawyer, or if Joshua said this at all to police. Mr Simon Cordell has tried to get hold of Joshua to make a statement for this case, but due to him being homeless, it has been very hard. As far as he is aware the building was being occupied by people to live in, he states he does not know anything Joshua said to police about know any think about a rave. Mr Simon Cordell did not manage to visit him on this day. At no point is Mr Simon Cordell being accused of acting in an anti-social manner on this date, or by any members of the public inclusive of members of the police, neither was he arrested.

The police are relying on Criminal Justice and Public Order Act 1994 section 63 http://www.legislation.gov.uk/ukpga/1994/33/section/63 Now I have read this a number of times and so, has Simon and at the last 2 court cases about this case the judge has, even asked if section 63 has not gotten defined. I do not think it has at all because under section 63 it only covers gathering on land in the open air of 20 or more people. How does this include indoors parties which most of the police case? relies on? Please read this also; http://www.bailii.org/ew/cases/EWHC/Admin/2010/1814.html As saw by the judge in the above case It will get noted that section 68(5) excludes the Highways and Roads excluded from section 61 under section 61(9)(b) but does not include in that exclusion, the exclusion in section 61(9)(a), which is where buildings got excluded from the application of section 61. It will be further noted the exclusion in the section 61 got introduced by the words' "in this section" and so without more it does not apply to other sections. Although the words "in the open air" where removed from section 68 of the 1994 Act, those same words got not removed from section 63 which concerns power to remove people attending or preparing for a rave, nor from section 77, which concerns powers to direct unauthorised campers to leave the land. The District Judge's reasoning got contained in these paragraphs off the Case, where she said: "I find section 61 holds the relevant definition of land for sections 68 and 69, and that excludes buildings. So, by section 68(5)(b), referring to the application off section 61(b) of the definition off 'land'. Amendments made by the Anti-Social Behaviour Act 2003 remove 'in the open air'. Nothing is included, save for the explanatory note, I give +++"
