The new Second Tenancy Holder of 117 since 01/03/2019 till 07/06/2019

	2019
	March
01/03/2019	<u>117 Burncroft Avenue</u> <u>The 2ND set of Tenant's since the Problems Started with the Flat being used as an</u> <u>Offensives Weapons against my Person and against my free will.</u> has been " <u>Re-Vacated</u> " again by John Iron
	117 Burncroft Avenue has been rented out again by John Iron and the Enfield Council pretty soon after what the Mathiyalagans Family have been doing to me and without any fair follow up, by any official persons.
	The reason that I understand that there is new tenant's that live within side of the premise of 117 is that when on my computer writing my report, I noticed a person directly above my head jumping on the floor. I was not too sure if it was the builders whom I had met just the other day on the date of
	00/00/20019 Who were maybe still re-decorating the flat? The Jumping above my head was directly above my work desk to where I was sitting in my managers chair and was not the average noise that the builders had been making while in the flat
	after it getting done up by the decorators straight after the Mathiyalagan Family moved or just after The 31st February 2019.
	I do not think that it is right or fair that he has been allowed to get away with what he has done to me by allowing the Mathiyalagan Family to live in his property and attack me the way they have with him knowing what they are doing to me and joining in while this breach of my human right gets accomplished.
	On this day I had been in the block of flats that I live in all morning and life had been quit peaceful but this lasted only for a little while. That said to mean that no person was bagging on the wall at me and I had no person flushing the toilet every time that I went into the bathroom and used it and also the fact that I had no person squeaking the floor boards above my head deliberately to hurt me or to have a negative effect on my way of life. My peaceful morning changed when I noticed someone above my flat start to squeak the floor board continually above my head to where I was sitting. I stayed quiet and just let th person or people do what they were doing in the flat.
	I could tell what was get done to me was not coming from the flat directly above mine and I knew that the flat in the middle was not vacated with occupiers due to what had happened to Ambrose. After about what seemed like an hour but was only in fact 20 Minutes, I decided to get up
	from where I was setting and move to another location inside of my flat and on my route to make sure it was obvious that I had gotten up and moved. Once I had done this and took a seat on my sofa, it never took more than a couple of seconds for the person to follow me and start doing the same again. This is easily done by any occupier or person that is inside of the flat of 117 Burncroft
	Avenue because of what has been done to me in the past by the past tenants. The flat floor boards have already been said to have seduced the fair standard of living as said by Sarah Flexure and a survivor in the Councils History and them officials who suble the premises out also understand the problems that I have been suffering through because of their neglect and people's criminal intentions.

	Soon afterwards I got fed up of what was clearly being done to me again by un known persons at this stage and decided to go to my toilet but got followed again by a person stamping their feet on the floor to where they could hear me below or assume, I would be. I waited for the night time to arrive while still getting tampered with and decided to take a trip to my local shop to pick up a few accessories for my so, called home. On the way back from the shop and as I approached my block of flats, I took a look up at the window of 117 Burncroft Avenue. The reason I had done this was to see if I could notice who had been I flat above just a little while prior. I also knew that there had been no curtons nets placed on the window since the Mathiyalagan Family vacated the property. When I done this, I noticed a man about the same age as myself he looks Turkish in complex. He was watching me as if in to say Hello I am the one now attacking you. I continued to walk straight into my flat and stayed calm. Not much else happened that night but I was expecting it to.
02/03/2019	
	The next Morning, I awoke and decided to sit down on my sofa for a little while and have a cup of coffee. It never took log before I noticed the sound of people getting up in the flat two floors above mine. I could hear them moving around and this never bothered me, but what did bother me was
	whenever the people walked above were, I would normally be sit on my computer desk and where I was then sitting on sofa they would stamp there feet but not in any other place this continued and the occasional object would get dropped on the wooden laminated flooring but only were I was below.
	nooring but only were I was below.
