On this occasion when I looked on Google and when I was also using, YouTube, I came across a video clip, what showed somebody's vehicle being 3D mapped; so, I decided to do further studies towards this topic and invest in the equipment, I needed to obtain, so to induce this new technology into my sound system; funny another, this meant, I ended up purchasing a sewing machine and this got done inclusively, of the digital equipment and materials, I wanted to have, so to do the correct job. Once I managed to get prepare everything needed, I took my first steps in completing my new goal. While in my own back garden at my home, I stood and painted the speaker box's in the sunny hot days and still using any additional time that I got left over to work while I got kept indoors to work in my front room, I Debbie Andrews kept watching me out of her front room window while I worked. I played with the sawing bobbing and sewing needles, this was easy for me to do as I have always enjoyed sawing. The rest came naturally, too me with the help and good advice of other past prior assemblers, in completing my missions, I got flabbergasted at the effects that I had achieved and could not wait to show others. Shortly, after the first days of August, I finished doing my modifications, so I moved the sound system back to another location, fort it to get kept safe, I believe at this time given, that I oversee the right amount of respect got given towards others in completing my goals and made sure that I did not upset a person.</p>

- **[Building A Festival](#)**

I always found myself, at home, and this was a lot more than usual and the reason for this was because of the court case. Changing to a different topic, I knew Debbie to have serious Mental Health problems, so I kept a reasonable close eye on her well-being within the time we got along, while this was going on, beforehand and after hand, at different times, Debbie used to come to mine and my first civil partner front door, asking to borrow money from us, as she did on this day at around the time of 01:33PM, she was always drunk with slurred words, this was not a big problem at first, on most occasions if me and my partner could help, "we would help," this is as we believed any person should help their neighbours, like if we saw her trying to carry her shopping up to her flat, as the man; I would help her carry it up to her front door as assume this is the right action to take. Only ever once, did I ever go into her flat and this was only for five minutes to help her!

I believe She'd only done these things to me because she was lonely, as can get read about in this report/ book, after me and my first civil partner ended, **sadly on 03 July 2013**

Debbie came down to my flat more and more frequently, she was trying to bring me alcoholic drinks and still asking me for money, in a summary, as if I was getting stalked by her, I never let Debbie inside my flat whenever she knocked on my front door. Sometimes, the hard liquor she would try to bring me, I believed was in return for the money I supported her with, as previously said I would never take the drinks of her, this was because I do not drink alcoholic substances regularly. I always tried to do my best to advise her to stop buying hooch and spirits this was inclusive of asking her to stop drinking it. On the whole and shockingly mine and Debbie's problems started soon after she had sent me numerous ID of peculiar letters, she had done this once she had realized that I was single. I still have those letters of her to date, most of them letters to invite me into her home and it seems from me reading them letters that most of them she had written had got done, while she got intoxicated with drink. For the right reasons, I kept our friendship as it had been for all the five years prior to what I had known her for, "as dated as" and politely declined her offers, of a closer friendship. I

	remember this memory well, as I was going through the court proceedings of the burglary case, at the same time.

There is going to be 2 emails for the Ponders End Festivals **2013** for Enfield Council I had to forward these from Simon Email to mine so I can send them to you. I have also made a copy of the flyer and will attach this to this email. Simon is meant to be supplying all the power for this event with his Gen and if all goes well, he will be the main person supplying all things for Enfield Council events from this point on. He will be given the main contract if all works ok with this one. He has not told Omar Lawrence who sets up these events for Enfield Council as to this case, and if the court would want to contract him please let Simon know as this he will need to address with the Omar Lawrence. I will send the floor plan over next which is in PDF format.

Please send me the emails again re Omar Lawrence on their own without making reference to Simon not disclosing his court case to Omar Lawrence so send a fresh email as opposed to a reply to one that I have sent you otherwise all the emails will be included. I will now progress the application to vary Simon's bail and I will copy you in on the emails. One observation that I do make, and the Judge will pick up on this is the time of the festival from 12pm 6pm. Whilst the Judge may extend the curfew time, he may not suspend it. However, if Simon is remaining on site with his equipment overnight then I can include this with my representations for bail.

Please get back to me.

Is there any chance we could also book your bouncy castle for the same weekend? Please advise price for both activities. We are checking we can get an electricity supply as generators are not allowed. Both activities will need to in place on Friday between 4pm and 8pm. The park will then be secured, and security guards will patrol through the night. The show is open to the public between 10am and 6pm both days. We are very happy to organise the activities ourselves, including set up and tear down if that keeps the price down, the final takes down is always chaos and if you want, we can tow from the park and return to your address as far as the fireworks are concerned can you quote for your big generator of the day please? We need 3 phase supply for a smoke machine and could do with as long an extension as you can supply. We would need you on site at midday. We make our final decision at midday about the weather and if we are going or no go. Regards, Darren.</p>

This very late notice has now made me lose contracts to hire out the gen, as I could have had other bookings, but knew I was booked for yourself. I did email Darren last week to confirm the booking, as for the gen not being able to cope with your needs, I know it would be fully capable to cope with all the requirements that we agree on and much more, as you know I did have a problem with my van which due to me knowing I was doing this event with you I made sure I paid to get it fixed so I did not let anyone down, as it was for the local community.
